LUXURY AVENUE INTERIORS

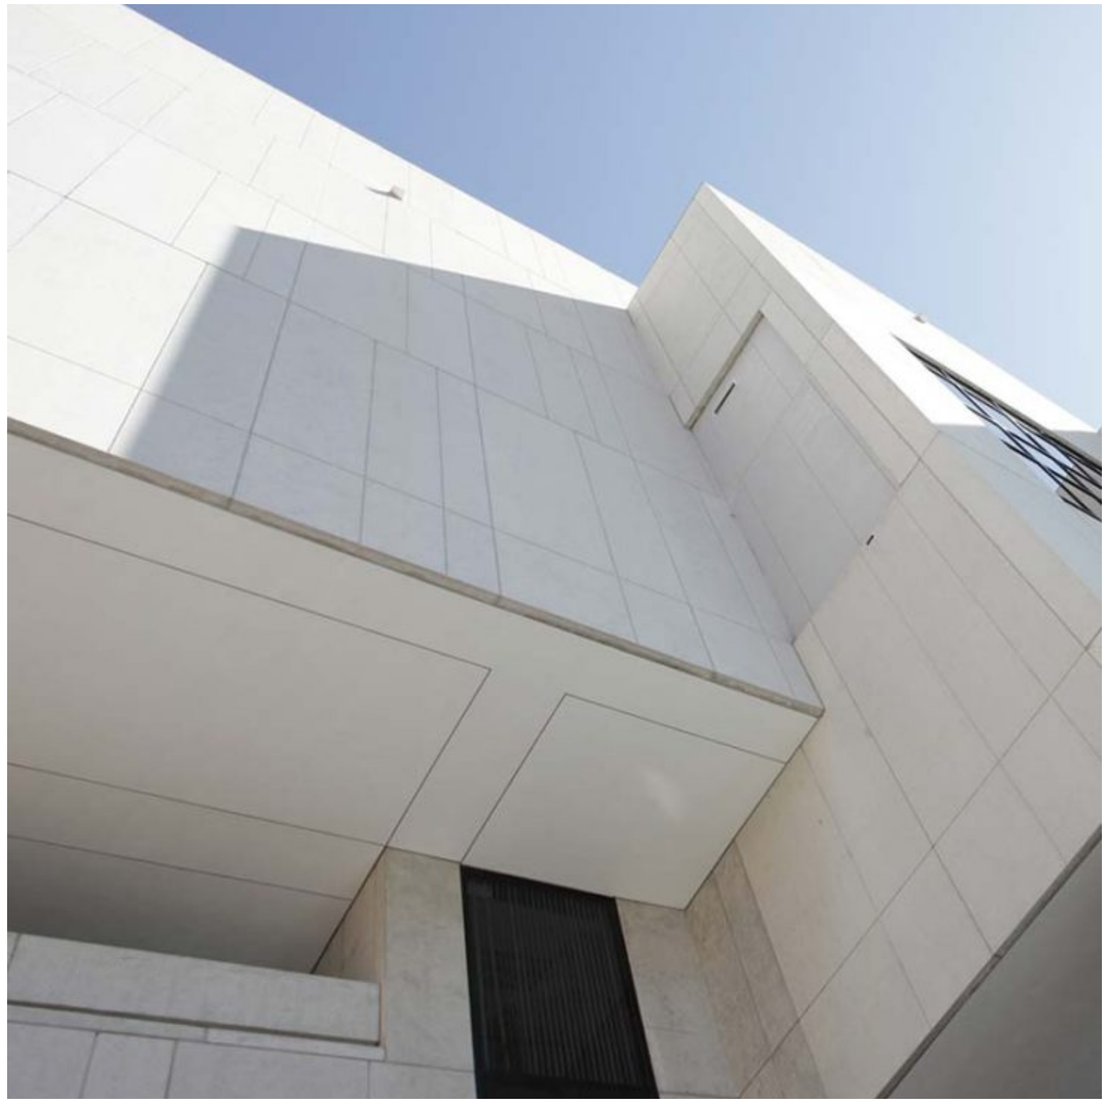
SERVICES WE OFFER

At Luxury Avenue Interiors, we offer a wide range of interior design services for residential and commercial spaces, as well as architectural design services. Our interior design services include space planning, furniture design and selection, color consulting, lighting design, material selection, and project management. We also provide specialized services such as home automation, landscaping, and custom artwork. Our architectural design services include concept design, master planning, building design, and project management. We work closely with our clients to understand their unique needs and deliver personalized design solutions that exceed their expectations.



RESIDENTIAL ARCHITECTURE

Residential architecture is concerned with the design and construction of houses and other residential structures. It includes structural design, space planning, interior and external design, and building codes, among other things.

COMMERCIAL ARCHITECTURE

Commercial Architecture involves designing and creating spaces for businesses and organizations, such as offices, retail stores, restaurants, hotels, and more, with the aim of providing functional and visually appealing spaces that meet the needs of the clients and users.

LANDSCAPE ARCHITECTURE

Outdoor space design, planning, and administration are all part of landscape architecture. It emphasizes on establishing beautiful and useful outdoor spaces, such as parks, gardens, and public areas.
